

- Wintertime Middle and High School Table Tennis Leagues: AYTTO in partnership with the New York City Department of Education, SPiN New York (Premiere Table Tennis Club) and Stiga (Swedish Sports Company), will launch an inter-scholastic middle school league this January for 40 schools. AYTTO is also working the Public School Athletic League to make table tennis a recognized sport at the high school level. AYTTO's funding commitment to these programs is 25% of all costs.
- School Year Sunday Table Tennis Academy: AYTTO's successful Sunday Academy draws the most interested students. This is for students who have chosen table tennis as their sport and seek our highly qualified coaches to learn: intricate skills, advanced tactics and athletic discipline. Far less expensive than traditional one-on-coaching yet highly effective. Sports and Academics working side by side.
- Summertime Table Tennis Clinics and Camps: Each summer AYTTO offers children who remain in New York City an opportunity to pay and receive additional instruction. These clinics and camps provide invaluable opportunity for participants to socialize, exercise and learn our favorite sport!
